

SKÓRA NATURALNA TOLEDO

Skóra Toledo jest jedną z najgrubszych skór naturalnych dostępnych w naszej ofercie. Jest ona nieco twardsza w dotyku od pozostałych skór.

- Naturalna skóra bydlęca o grubości 1,3 – 1,6 mm
- jednokolorowa
- matowa
- bardzo wytrzymała na przetarcia i uszkodzenia mechaniczne
- wytwarzana ze skóry bydlęcej, która jest poddawana specjalnemu procesowi garbowania.

Są to skóry o licu korygowanym i odpowiednim tłoczeniu dla uzyskania efektu dużej ziarnistości. Toledo to sprawdzona, bardzo popularna skóra tapicerska, od wielu lat stosowana przy produkcji mebli tapicerowanych na rynku europejskim.
