Kayto

A certified Nordic Swan Ecolabel product

Introduction

As consumers, we are all obligated to reevaluate our consumption habits. Our collective will to prioritize the purchase of products that we want to keep over time is crucial as it is the most effective way to minimize resource consumption and pollution.

As a supplier of upholstered furniture, we are obligated to design and develop products optimized for a long life cycle. At the same time, materials must be selected, and designs developed with sustainability, disassembly and recirculation in mind.

Kayto is designed to honor the above without compromising functionality, comfort or aesthetics.

The first principal criteria to meet when designing and producing a meaningful sustainable product is to ensure that the product will have a degree of uniqueness, a convincing and attractive aesthetic and functional profile.

In terms of build, style and comfort, Kayto is designed to respect the above.

Kayto is designed for everyday use. A presentable, comfortable and practical sofa equipped with removable, washable covers. The design also makes it possible to easily replace individual parts in case they are damaged, or you just want to change the look by replacing the color of the cover or choice of fabric. This is an essential part of the design as it prolongs longevity of the sofa - in the interest of your economy and consumption of resources.

Kayto's style is defined by the distinctive and comfortable cushion arm which is intentionally designed to lean into if you want to lie down on the sofa with a good book. The arm, in combination with the horizontal seats, provides an exceptional comfort. A spot designed to recover and collect new energy.

Kayto is designed as a distinctive lounge sofa with low seat height and relatively deep seats. In order to be able to adjust the sitting comfort and adapt it to a given situation and body structure, we offer a variety of cushions to form the preferred support.

Give back to Nature

In addition to using FSC certified wood, we contribute to the balance of the global ecosystem by planting more than 10.000 trees every year to compensate for our consumption of wood.

Nordic Swan Ecolabel

The Nordic Swan Ecolabel Certification is one of the world's strictest environmental certifications and makes it easy to choose the best environmentally friendly products. The Nordic Swan Ecolabel Certification reviews all relevant environmental problems when it makes demands to a manufacturer. This holistic approach is one of the strengths of the Nordic Swan Ecolabel Certification.

Some of the major crises of our time are connected, but there is not always a connection between the solutions. Consequently, it requires a well-balanced, holistic focus if we are to take care of our planet - and the Nordic Swan Ecolabel Certification has that focus. The aim of the certification is to reduce the overall environmental impact from production and consumption. That is why the Nordic Ecolabel Certification examines the entire product life cycle.

The Nordic Swan Ecolabel:

- is an official environmental certification
- looks at the product's entire life cycle
- takes into account all relevant environmental problems
- helps navigate a complex area to make better environmental choices

By choosing a Nordic Swan Labeled Certified product you contribute to:

- a richer and cleaner nature
- better balance in everyday life
- responsible use of our planet's resources
- a reduced climate footprint
- a more sustainable future

Detachable covers

Upholstery parts

Powder coated steel

Sustainability profile

Kayto is designed for a long life cycle, which is one of the primary intentions of our design philosophy.

- Strong and durable components in a design optimized for easy maintenance.
- All parts can be individually renewed if worn out or in case of damaging accidents.
- The detachable, washable covers are fitted with zippers that enable quick removal and precise reassembly, ensuring that the sofa remains presentable over time.
- We offer 5 year warranty on the Kayto concept.

Optimized for transportation

The flat package design ensures minimized CO₂ emissions in relation to transport and storage as it reduces the total volume of the items. Smaller packages also mean more convenient handling and thus less risk of damage during transport as well as it makes it easier to install a sofa in for instance compact apartment buildings.

Materials

All materials are carefully selected in respect of overall quality and sustainability profile of the product.

- Which materials do we have available?
- How is it produced and with which environmental impact?
- Can the material be reused or upcycled?
- Which materials meet our expectations in terms of aesthetics, comfort and durability?

Disassembly, recycling & waste management

The sofa is designed as individual components which allow for separation of the sofa to ensure materials can be sorted into recyclable parts and waste.

The combinations

All combinations can be mirrored

Combinations 75cm

Combinations 90cm

All measurements may vary up to 3cm due to the handcrafted upholstery. Chaise longue width: 90 cm. Arm width: 12,5cm per arm. Please note that Adjust cushions and Envelope cushions are optional extras.

Fabrics

All fabrics are made from, or partly made from recycled materials.

Bouclé | 55% Recycled Polyester / 45% Polyester | Oeko-Tex®

531 Bouclé, Off White 533 Bouclé, Ash Grey 534 Bouclé, Black Raven

Vivus | 100% Recycled Polyester | Oeko-Tex®

571 Vivus, Dusty Sand 573 Vivus, Dusty Blue 574 Vivus, Dusty Off White 575 Vivus, Dusty Olive

Mahoga | 70% Recycled Wool / 20% PL / 5% PA / 5% PA

850 Mahoga, Caramel Grey 851 Mahoga, Dark Blue 852 Mahoga, Seal Grey 853 Mahoga, Dove Grey

Argus | 100% Recycled Polyester | Oeko-Tex®

580 Argus, Navy Blue 581 Argus, Rust 583 Argus, Grey 584 Argus, Natural 585 Argus, Brown

Nordic Swan Ecolabel certified fabrics

Cura | 98% Recycled Polyester / 2% Polyester | Oeko-Tex®

764 Cura, Sand Grey 765 Cura, Oat 766 Cura, Anthracite 767 Cura, Apricot 768 Cura, Oxford Blue 769 Cura, Saga Green

Comfort

Kayto is based on a solid FSC certified finger-joint beech wood frame. The comfort is constructed to be simple with few materials. A no-zag base with a OEKO-tex high resilient sandwich foam construction. Hypersoft foam and an OEKO-tex certified fiberfill create a soft topping.

Adjust cushions

Detachable covers. 100% recycled, OEKO-tex multiple fibre layers and fibertex inner covers. Please note that Adjust cushions are optional extras.

30 x 60 cm

45 x 65 cm

55 x 55 cm

Envelope cushions

Detachable covers. OEKO-tex carded fibres and fibertex inner covers. Please note that Envelope cushions are optional extras.

45 x 45 cm
