HALO DESIGN

THE ATOM SERIES

With the well known functionality from our design series Atom from Halo Design, Emanuele and Michael have developed more to the Atom family.

Though many may find the new color OXID exiting itself, the design duo decided to dig even further into the rotating elements of electrons, and have developed 5 new cool Atom lamps. Table, wall, ceiling and 2 new chandeliers. The complete series comes in both Opal, Smoke and Amber.

Last and not least, the brand new development of the COLORS 3 step dimmable bulb, especially used for Atom, deserves a high attention.

Please welcome the new members to the Halo Design collection.
